

Inchworm News
July-August 2010

The summer is quickly passing us by. We will continue enjoying the warm sunshine by playing outside on the grass, and sightseeing on our walks around the neighborhood and to the college lake. The children are having a great time together and are learning more from each other as the months go by.

Madalynn will be turning one in August and is ready to cruise around our room with confidence. We are so proud of her.

Isabella is crawling and exploring with the biggest smile on her face.

Elysia is very verbal and would like to follow her friends around the room. We are encouraging her and cheering her on.

Brock is sitting by himself and likes the beach balls and shaking the bottles to music.

Barrett is also sitting by himself and likes to play by the busy boxes and "talk" to the zoo animals.

Garrett has adjusted very well and loves jumping in the bouncing chair. He is also pulling and inching himself around the room. Watch out, girls 😊

The Inchworms will be busy talking about the beach and the bright yellow sun. We will have a splash day and enjoy some art activities involving fish and boats.

Your children are wonderful. Please feel free to visit anytime. Enjoy the rest of your summer and stay cool.

Working together,
Kathy and Lynn
